## License

The document accompanying this license and the information contained therein (the Document), whether in a paper or electronic format, is made available to you subject to the terms stated below. By using and/or copying all or part of the Document, you (the licensee) agree that you will comply with the following terms and conditions.

1. You may, on a non-exclusive basis, use the Document only on the condition that you abide by the terms of this license. Subject to this condition and other terms and restrictions contained herein, the Document and the information contained therein may be used (i) to further develop the standards described in the Document for use in relation with the Olympic and Paralympic Games and/or (ii) to develop similar standards for other events than the Olympic and Paralympic Games (both (i) and (ii) are hereinafter designated as the Permitted Use, and works further developing these standards for the Olympic and Paralympic Games or developing similar standards for other events are hereinafter referred to as Derivative Works), and copies of the Document or of Derivative Works may be made and distributed for the purpose of the Permitted Use, PROVIDED THAT the COPYRIGHT and references to the IOC appearing in the Document and the TERMS OF THIS LICENSE are included on ALL such COPIES, and further PROVIDED THAT you do not charge any fee or any other monetary compensation for the distribution of the Document to others. The copyright and other intellectual property rights in the Document remain vested in the IOC and the IOC remains entitled to assert his copyright or other intellectual property rights in the Document against any person or entity who does not comply with the terms of this License.
2. A copy of any Derivative Work shall be provided to the IOC free of charge. Moreover, the IOC is granted a worldwide, perpetual, unrestricted, royalty-free non-exclusive license to use any Derivative Work for the further development of the standards made by or for the IOC in relation to the Olympic and Paralympic Games (these standards and the documents describing them are hereinafter referred to as Further Standards) and to make or have made all kinds of exploitation of the Further Standards, with the right to grant sub-licenses.
3. Except if reproduced in the Document, the use of the name and trademarks of the IOC is strictly prohibited, including, without limitation, for advertising, publicity, or in relation to products or services and their names. Any use of the name or trademarks of the IOC, whether registered or not, shall require the specific written prior permission of the IOC.
4. NO WARRANTY, EXPRESSED OR IMPLIED, IS MADE REGARDING THE ACCURACY, ADEQUACY, COMPLETENESS, RELIABILITY OR USEFULNESS OF ANY INFORMATION CONTAINED IN THE DOCUMENT. The Document and the information contained herein are provided on an "as is" basis. THE IOC DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF NON-INFRINGEMENT OF PROPRIETARY RIGHTS, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL THE IOC BE LIABLE TO ANYONE FOR DAMAGES OF ANY KIND ARISING FROM OR RELATING TO YOUR ACQUISITION, USE, DUPLICATION, DISTRIBUTION, OR EXPLOITATION OF THE DOCUMENT OR ANY PORTION THEREOF, INCLUDING BUT NOT LIMITED TO, COMPENSATORY DAMAGES, LOST PROFITS, LOST DATA OR ANY FORM OF SPECIAL, INCIDENTAL, DIRECT, INDIRECT, CONSEQUENTIAL OR PUNITIVE DAMAGES, WHETHER BASED ON BREACH OF CONTRACT OR WARRANTY, TORT OR OTHERWISE. THE IOC FURTHER DISCLAIMS ANY LIABILITY FOR ANY DAMAGE CAUSED WHEN THE DOCUMENT IS USED IN A DERIVATIVE WORK. The IOC further disclaims any liability regarding the existence or inexistence of any intellectual property or other rights that might be claimed by third parties with respect to the implementation or use of the technology or information described in the Document.

The same conditions as those described in this Section shall apply mutatis mutandis to the license granted to the IOC on the Derivative Works in Section 2 above.

5. This License is perpetual subject to your conformance to its terms and conditions. The IOC may terminate this License immediately upon your breach of any of its terms and, upon such termination you will cease all use, duplication, distribution, and/or exploitation in any manner of the Document.
6. This License is governed by the laws of Switzerland. You agree that any disputes arising from or relating to this License will be resolved in the courts of Lausanne, Switzerland.

IF YOU DO NOT AGREE TO THESE TERMS YOU MUST CEASE ALL USE OF THE DOCUMENT NOW.

# 1 Introduction

## 1.1 This document

This document includes the ODF Football Data Dictionary. This Data Dictionary refines the messages described in the ODF General Messages Interface Document specifically for Football.

## 1.2 Objective

The objective of this document is to provide a complete and formal definition of the ODF Football Data Dictionary, with the intention that the information message producer and the message consumer can successfully interchange the information as the Football competition is run.

## 1.3 Main Audience

The main audience of this document is the IOC as the ODF promoter, ODF users such as the World News Press Agencies, Rights Holding Broadcasters and International Sports Federations.

## 1.4 Glossary

The following abbreviations are used in this document.

| Acronym | Description                     |
|---------|---------------------------------|
| IF      | International Federation        |
| IOC     | International Olympic Committee |
| NOC     | National Olympic Committee      |
| ODF     | Olympic Data Feed               |
| RSC     | Results System Codes            |
| WNPA    | World News Press Agencies       |

## 1.5 Related Documents

## 2 Messages

### 2.1 Applicable Messages

The following table is a full list of all ODF messages and describes the list of messages used in Football.

- The column “Message type“ indicates the DocumentType that identifies a message
- The column “Message name“ is the message name identified by the message type
- The column “Message extended“ indicates whether a particular message has extended definition in regards to those that are general for all sports. If one particular message is not extended, then it should follow the general definition rules.

## 2.2 Messages

### 2.2.1 Competition schedule / Competition schedule update

#### 2.2.1.1 Description

The Competition schedule is a bulk message provided for one particular discipline. As a general rule, it contains the complete schedule information for all event units needed to run a competition and excludes event units for activities such as unofficial training and press conferences.

This message contains the competition timetable for a complete discipline as well as status for each competition unit and is updated from OVR via the schedule update message.

All event units in codes which have the 'schedule' flag set to 'Y' are included in schedule messages (and have status UNSCHEDULED or SCHEDULED).

The arrival of the competition schedule message resets all the previous schedule information for one particular discipline.

The StartList component of the message is only included in the case that the Unit Type is one of HATH, HCOUP, HNOC or HTEAM and at least one of the competitors are known.

The Composition component (i.e. listing athletes) is only included in the case that the Unit Type is one of HATH or HCOUP.

For reference the applicable unit types (from common codes) are:

HATH Individual Head to Head units (e.g. AR, BD, TE etc)

HCOUP Pairs/Couples Head to Head units (e.g. BD, TE etc)

HNOC NOC Head to Head units (e.g. AR)

HTEAM Teams Head to Head units (e.g. BK, BV, HB etc)

Managing when start times are not known.

In some disciplines the start time of each unit is not known and the unit are managed by order rather than time.

In these disciplines usually only the time of the first unit (or first unit per location) is known and distributed. In this case all units should be sent with the same start time and those following units

flagged as HideStartDate (and finish). To be able to correctly order these units then the Order attribute is used.

To ensure there are no incorrectly ordered units then the start time must not be updated to the actual start time (there is an actual start time field to cater for this).

If the discipline requires some text describing the order then StartText is used. Typical uses include 'Not before 17:00' or 'SUN 29 - 2nd match on CC' or 'Follows'.

Where HideStartDate='Y' is used then all start times for the units may be the same, usually the same as the first unit in the session or location (which generally will not use HideStartDate='Y') but this is not mandatory and approximate start times may be used. The specific way this is managed in each sport is detailed in the specific sport data dictionary.

Advice for end users - how to sort event units and use DT\_SCHEDULE:

- When displaying the schedule users must use the following sort order to display as intended:

1. By day (or filter by day)
2. By location if applicable (in a small number of sports)
3. By Time (regardless if HideStartDate='Y')
4. By Order

- The Order is sent for all units where HideStartDate='Y' else not sent. Start with 1 each new session each day

- End users should display StartText if HideStartDate='Y'

Competition schedule update:

Competition schedule update is an update message. It is not a complete schedule information message, but only the schedule data being modified.

The arrival of this message updates the previous schedule information for one particular event unit, but does not notify any other change for the rest of the event units except for those contained in the message.

The key of the information updated is Unit @Code. Therefore, any new unit, deleted unit or updated unit will be identified by all this attribute.

It has to be understood that if one DT\_SCHEDULE message arrives, then all previous DT\_SCHEDULE\_UPDATE messages should be discarded.

### 2.2.1.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                               | Comment  |
|-----------------|-------------------------------------|--|
| CompetitionCode | <a href="#">CC @Competition</a>     | Unique ID for competition  |
| DocumentCode    | DD0000000                           | DD should be defined according to CC @Discipline   |
| DocumentSubcode | DDGEEPUU                            | Only used for DT_SCHEDULE_UPDATE.<br>Should be the Code of the first Unit in the message.<br>This attribute is mainly used for searching.  |
| DocumentType    | DT_SCHEDULE /<br>DT_SCHEDULE_UPDATE | Competition schedule bulk / update   |
| Version         | 1...V                               | Version number associated to the message's content. Ascendant number   |
| FeedFlag        | "P"-Production<br>"T"-Test          | Test message or production message.  |
| Date            | Date                                | Refer to the ODF header definition   |
| Time            | Time                                | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.  |
| LogicalDate     | Date                                | Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.<br><br>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).<br><br>The end of the logical day is defined by default at 03:00 a.m.<br><br>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.<br><br>Logical Date is expressed in the local time zone where the message was produced. |
| Source          | <a href="#">SC @Source</a>          | Code indicating the system which generated the message.  |
| Serial          | Numeric                             | Sequence number (positive integer) for ODF messages.<br><br>Serial starts with 1 each day for each Source.   |

### 2.2.1.3 Trigger and Frequency

The competition schedule will be sent as a bulk message (DocumentType="DT\_SCHEDULE") approximately 1 month before the Games and then sent multiple times until a date to be confirmed after which only update messages will be sent (DocumentType="DT\_SCHEDULE\_UPDATE") by OVR. There is no automatic triggering and this (DT\_SCHEDULE) message must not be sent after the transfer of control to OVR.

The competition schedule update message should be triggered at any time there has been a competition schedule modification for any previously sent competition schedule bulk message or update message including the addition of start list details (H2H).

Generally start list details for H2H should be sent immediately when known and usually soon after the preceding unit changes to Official.

The triggers for status changes are described in each sport data dictionary where differences are needed.

If any text descriptions change in a message (as opposed to the code) then this message is not resent to correct previous messages however the new data is to be used in future messages.

### 2.2.1.4 Message Structure

The following table defines the structure of the message.

| Level 1                  | Level 2           | Level 3         | Level 4 | Level 5 | Level 6 | Level 7 |
|--------------------------|-------------------|-----------------|---------|---------|---------|---------|
| <u>Competition (1,1)</u> |                   |                 |         |         |         |         |
|                          | Code              |                 |         |         |         |         |
|                          | <u>Unit (0,N)</u> |                 |         |         |         |         |

### 2.2.1.5 Message Values

**Element: Competition (1,1)**

Table Note: "Competition schedule" and "Competition schedule update" share the same message structure and message attributes, except for the two ModificationIndicator attributes, which are specific to the "Competition schedule update message".

| Attribute | M/O | Value                           | Description  |
|-----------|-----|---------------------------------|--|
| Code      | M   | <a href="#">CC @Competition</a> | Unique ID for competition<br>Code is deprecated and value is duplicated in the header. |

**Element: Competition /Unit (0,N)**

INTERNATIONAL OLYMPIC COMMITTEE

ODF/INT159- R-SOG-2016-v1.8 APP (FB)

| Attribute | M/O | Value | Description |
|-----------|-----|-------|-------------|
|-----------|-----|-------|-------------|

|                |   |                                    |   |
|----------------|---|------------------------------------|---|
| Code           | M | Full RSC for the unit              |   |
| PhaseType      | M | Phase type for the unit            |   |
| UnitNum        | O | S(6)                               | Match / Game / Bout / Race Number or similar  |
| ScheduleStatus | M | <a href="#">CC @ScheduleStatus</a> | Unit Status   |
| StartDate      | O | DateTime                           | <p>Start date. This attribute may not be sent when the @ScheduleStatus is UNSCHEDULED. For other statuses the StartDate is expected otherwise ordering is display is incorrect (including CANCELLED and POSTPONED.)</p> <p>This is the scheduled Start date and time and will not be updated when an event unit starts (updated only with RESCHEDULED status)</p> <p>Example: 2006-02-26T10:00:00+01:00</p>   |
| HideStartDate  | O | S(1)                               | <p>Send 'Y' if StartDate (scheduled start time) should not be displayed. It may be an estimate or 'fake' time. Do not send if StartDate (scheduled start time) is to be displayed.</p> <p>Start times of some units depend on the finalisation of previous event units and therefore there is no fixed start time in these cases this field is set to 'Y'.</p> <p>When the flag is set to 'Y' then the time is used for sorting purposes but should not be displayed.</p> |
| EndDate        | O | DateTime                           | <p>End date. This attribute may not be sent when the @ScheduleStatus is UNSCHEDULED, POSTPONED or CANCELLED.</p> <p>Example:<br/>2006-02-26T10:00:00+01:00</p>  |
| HideEndDate    | O | S(1)                               | <p>Send 'Y' if EndDate scheduled end time is not to be displayed.</p> <p>Some event units have a scheduled end time well bounded, however, some event units in some circumstances have a scheduled end time not quite variable (example, some press conferences or tennis matches, etc.) in these cases this field is set to 'Y' and should not be displayed.</p>   |

|                       |   |                                   |  |
|-----------------------|---|-----------------------------------|--|
| ActualStartDate       | O | DateTime                          | This attribute is expected once the event unit has started.<br>Example: 2006-02-26T10:03:22+01:00  |
| ActualEndDate         | O | DateTime                          | This attribute is expected once the event unit has finished.<br>Example: 2006-02-26T12:43:51+01:00   |
| Medal                 | O | <a href="#">SC @UnitMedalType</a> | Gold medal event unit or bronze medal event unit.<br>Do not send if not a medal event unit   |
| Venue                 | M | <a href="#">CC @VenueCode</a>     | VVenue where the unit takes place<br>Use TBD if the Venue is not known yet (CC).   |
| Location              | M | <a href="#">CC @Location</a>      | Location where the unit takes place<br>Use TBD if the Location is not known yet (CC) or a generic code for the discipline.   |
| ModificationIndicator | O | N, U                              | Attribute is mandatory in the DT_SCHEDULE_UPDATE message only<br><br>N-New event unit<br>U-Update event unit<br>If ModificationIndicator='N', then include new event unit. It will be rarely used as most added units were available in "UNSCHEDULED" status.<br><br>If ModificationIndicator="U", then update the event unit. |

**Element: Competition /Unit /StartText (0,N)**

This element is only used for Competition Schedules when HideStartDate is 'Y'. In this case, English Language is mandatory.

| Attribute | M/O | Value                        | Description  |
|-----------|-----|------------------------------|--|
| Language  | M   | <a href="#">CC @Language</a> | Code Language of the @Value  |
| Value     | M   | S(20)                        | Text to be displayed in the case that StartDate is not to be displayed (e.g. "After M.1" or "Followed by") |

**Element: Competition /Unit /ItemName (1,N)**

| Attribute | M/O | Value                        | Description   |
|-----------|-----|------------------------------|---|
| Language  | M   | <a href="#">CC @Language</a> | Code Language of the @Value   |
| Value     | M   | S(40)                        | Item Name / Unit Description.<br><br>For competition units show the short unit description from common codes which matches the RSC.<br><br>For non-competition schedules (where the item description is not in common codes) then add the |

| <b>StartList information is only sent in the case that the Unit type is one of HATH, HCOUP, HNOC or HTEAM and at least one of the competitors are known. (Sent as soon as known for applicable units)</b> |            |              |   |
| <b>Attribute</b>  | <b>M/O</b> | <b>Value</b> | <b>Description</b>  |
| StartOrder  | O          | Numeric      | Competitor's start order  |
| SortOrder   | M          | Numeric      | Used to sort competitors in an event unit (for example, if there is no StartOrder). It is mainly used for display purposes. |

| <b>Element: Competition /Unit /StartList /Start /Competitor (1,1)</b> |            |  |  |
|---|------------|--|--|
| <b>Attribute</b>  | <b>M/O</b> | <b>Value</b>                                 | <b>Description</b>   |
| Code  | M          | S(20) with no leading zeroes, TBD or NOCOMP. | Competitor's ID, TBD in case that the competitor is not known at this time AND the other competitor is known. NOCOMP is sent when there is no competitor (and will not come later) |
| Type  | M          | T  | T for team   |
| Organisation  | O          | <a href="#">CC @Organisation</a>             | Should be sent when known  |

| <b>Element: Competition /Unit /StartList /Start /Competitor /Description (0,1)</b> |            |              |   |
|--|------------|--------------|---|
| <b>Attribute</b>   | <b>M/O</b> | <b>Value</b> | <b>Description</b>                              |
| TeamName   | M          | S(73)        | Team Name where known, must send when available |

### 2.2.1.6 Message Sort

Sort by Session @SessionCode.

The message is sorted by Unit@StartDate then by Unit@Order then Unit@Code.

In case of event unit with no Unit@StartDate defined (example, they are in an event unit status such as UNSCHEDULED), they will be listed at the end in Unit@Code order.

INTERNATIONAL OLYMPIC COMMITTEE

ODF/INT159- R-SOG-2016-v1.8 APP (FB)

## 2.2.2 List of participants by discipline / List of participants by discipline update

### 2.2.2.1 Description

A participant is considered to be any individual (type athlete, participating or not in the current games) or any official in one or several disciplines or a competitor being part of a team (team member).

Although the participant may participate in more than one event or more than one discipline, this message just contains the information for the discipline of the message, listing the information of all the events for that discipline.

This message includes historical athletes that do not participate in the current competition. Historical athletes will not be registered to any event.

It is important to note that all the sport messages that make references to athletes (start list, event unit results, etc.) will always match the athlete ID with the athlete ID in this message. The historical athletes will be used to match historical athlete information as it appears in the records message when sending the previous record information and this previous record was an historical record not being broken in the current competition.

List of participants by discipline (DT\_PARTIC) is a bulk message, provided for each discipline. It is a complete participant information message for one particular discipline. The arrival of this message resets all the previous participants' information for one particular discipline. This message can include a list of current athletes, officials, coaches, guides, technical officials, Reserves and historical athletes.

List of participants by discipline update (DT\_PARTIC\_UPDATE) is an update message. It is not a complete list of participants' information by discipline message, only the participant data being modified, i.e. if some data of one participant changes, the element Participant for it with all its children and attributes must be sent.

The key of the information updated consists of the following attribute: Participant @Code. Therefore, any new or updated Participant Discipline-Event will be identified by all these attributes.

### 2.2.2.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                           | Comment                   |
|-----------------|---------------------------------|---------------------------|
| CompetitionCode | <a href="#">CC @Competition</a> | Unique ID for competition |

|              |                               |   |
|--------------|-------------------------------|---|
| DocumentCode | DD0000000                     | DD is defined according to CC @Discipline   |
| DocumentType | DT_PARTIC<br>DT_PARTIC_UPDATE | List of participants by discipline message  |
| Version      | 1..V                          | Version number associated to the message's content. Ascendant number  |
| FeedFlag     | "P"-Production<br>"T"-Test    | Test message or production message.   |
| Date         | Date                          | Date when the message is generated, expressed in the local time zone where the message was produced.  |
| Time         | Time                          | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.   |
| LogicalDate  | Date                          | <p>Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.</p> <p>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).</p> <p>The end of the logical day is defined by default at 03:00 a.m.</p> <p>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.</p> <p>Logical Date is expressed in the local time zone where the message was produced.</p> |
| Source       | <a href="#">SC @Source</a>    | Code indicating the system which generated the message.   |
| Serial       | Numeric                       | <p>Sequence number (positive integer) for ODF messages.</p> <p>Serial starts with 1 each day for each Source.</p>   |

### 2.2.2.3 Trigger and Frequency

The DT\_PARTIC message is sent as a bulk message approximately one month before the Games. It is sent several times up to the date of transfer of control to OVR after which only DT\_PARTIC\_UPDATE messages are sent.

The DT\_PARTIC\_UPDATE message is triggered when there is a modification in the data for any individual after the transfer of control to OVR.

### 2.2.2.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2                           | Level 3                          | Level 4 | Level 5 | Level 6 |
|-----------------------------------|-----------------------------------|----------------------------------|---------|---------|---------|
| <a href="#">Competition (1,1)</a> |                                   |                                  |         |         |         |

### 2.2.2.5 Message Values

| Element: Competition (1,1) |     |                                 |  |
|----------------------------|-----|---------------------------------|--|
| Attribute                  | M/O | Value                           | Description  |
| Code                       | M   | <a href="#">CC @Competition</a> | Unique ID for competition<br>Code is deprecated and value is duplicated in the header. |

| Element: Participant (1,N) |     |                              |   |
|----------------------------|-----|------------------------------|---|
| Attribute                  | M/O | Value                        | Description   |
| Code                       | M   | S(20) with no leading zeroes | Participant's ID.<br><br>It identifies an athlete or an official and the holding participant's valid information for one particular period of time.<br><br>It is used to link other messages to the participant's information.<br><br>Participant's information (example @Organisation) will not be the latest for the athlete/official, unless the @Code attribute is the same as the @Parent attribute. However, this information could be the one being valid in the particular moment of a start list, event unit results, etc. |

|                  |   |                                  |   |
|------------------|---|----------------------------------|---|
|                  |   |                                  | When the participant is an historical one, then this ID will start with "A" when it is an Athlete, "C" when Coach and "O" when Official.  |
| Parent           | M | S(20) with no leading zeroes     | Participant's parent ID, which is used to link to the latest valid information for one participant. @Parent attribute should be linked to the latest participant's information, by retrieving that Athlete/Official whose @Code attribute is the same as @Parent.<br><br>The participant containing @Code attribute being the same as the @Parent attribute will be the one with the latest information for the participant.<br>The @Parent attribute will only be different from @Code in the case that critical personal information has changed from previous competitions. The typical examples are Organisation (for change of country) or Name (particularly for women changing their name at marriage). Further to be clear, @Parent and @Code can only be different if Current = "false". |
| Status           | O | <a href="#">CC @ParticStatus</a> | Participant's accreditation status this attribute is Mandatory in the case of @Current="true" and it is optional in the case that @Current="false".<br><br>To delete a participant, a specific value of the Status attribute is used.   |
| GivenName        | M | S(25)                            | Given name in WNPA format (mixed case)  |

|  |  |  |                    |
|--|--|--|--------------------|
|  |  |  | attribute is used. |
|--|--|--|--------------------|

**Element: Participant /Discipline (1,1)**

All participating athletes will be assigned at least one discipline, it could be more. Each accredited official will be assigned at least one discipline, but it could be more. If an athlete or official is assigned to more than one discipline, it will be included in the participant message of both disciplines.

| Attribute | M/O | Value                          | Description  |
|-----------|-----|--------------------------------|--|
| Code      | M   | <a href="#">CC @Discipline</a> | It is the discipline code used to fill the OdfBody @DocumentCode attribute.  |
| IFId      | O   | S(16)                          | FIFA ID (Competitor's federation number for the corresponding discipline), include if the discipline assigns international federation codes to athletes. |

**Element: Participant /Discipline /RegisteredEvent (0,N)**

All accredited athletes will be assigned to one or more events. There is one exception: in some sports, substitutes may be accredited without any associated event. Historical athletes are not registered to any event.

| Attribute | M/O | Value                                | Description  |
|-----------|-----|--------------------------------------|--|
| Gender    | M   | <a href="#">CC @DisciplineGender</a> | Discipline Gender Code   |
| Event     | M   | <a href="#">CC @Event</a>            | Event ID   |
| Bib       | M   | S(4)                                 | Shirt number for the athlete.<br><br>Although this attribute is optional, it will be updated and informed as soon as it is known.<br>Example: 1, 2, 17 ...<br><br>Send only in the Case of Current="true". |

**Element: Participant /Discipline /RegisteredEvent /EventEntry (0,N)**

Send if there are specific athlete's event entries.

| Type  | Code             | Pos        | Description  |

**2.2.2.6 Message Sort**

The message is sorted by Participant @Code

## 2.2.3 List of teams / List of teams update

### 2.2.3.1 Description

DT\_PARTIC\_TEAMS contains the list of teams related to the current competition.

A team is a type of competitor, being a group of two or more individual athletes participating together in one event. Pairs (tennis, figure skating, etc.) are also defined as team of two competitors. One team participates in one event of one discipline. When one team participates in multiple events, there will be one team for each event for the same group. Also when the same organisation participates in the same event twice, there will be different teams.

A historical team is defined as a group of athletes (team members) competing in the past in a competition event for an organisation. The historical team members appearing in this message will be listed in the list of historical athletes' messages. The list of historical teams just associates historical team members with the corresponding historical teams. Historical teams will not be registered to any event.

For equestrian one athlete and one horse are not considered a team, the horse is an attribute of the athlete.

List of teams (DT\_PARTIC\_TEAMS) is a bulk message by discipline. The list is always complete. The arrival of this message resets all the previous participant teams' information for that discipline. It is assumed that all teams appearing in this list are valid, in the meaning that they are participating or they could participate in one event.

List of teams update (DT\_PARTIC\_TEAMS\_UPDATE) is an update message. It is not a complete list of teams' information message. It only contains the data of a team being modified.

### 2.2.3.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value   | Comment  |
|-----------------|---|--|
| CompetitionCode | <a href="#">CC @Competition</a>                 | Unique ID for competition  |
| DocumentCode    | DD0000000                                       | DD is defined according to CC @Discipline                            |
| DocumentType    | DT_PARTIC_TEAMS /<br>DT_PARTIC_TEAMS_UP<br>DATE | List of participant teams message                                    |
| Version         | 1..V  | Version number associated to the message's content. Ascendant number |

|             |                            |   |
|-------------|----------------------------|---|
| FeedFlag    | "P"-Production<br>"T"-Test | Test message or production message.   |
| Date        | Date                       | Date when the message is generated, expressed in the local time zone where the message was produced.  |
| Time        | Time                       | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.   |
| LogicalDate | Date                       | <p>Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.</p> <p>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).</p> <p>The end of the logical day is defined by default at 03:00 a.m.</p> <p>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.</p> <p>Logical Date is expressed in the local time zone where the message was produced.</p> |
| Source      | <a href="#">SC @Source</a> | Code indicating the system which generated the message.   |
| Serial      | Numeric                    | <p>Sequence number (positive integer) for ODF messages.</p> <p>Serial starts with 1 each day for each Source.</p>   |

### 2.2.3.3 Trigger and Frequency

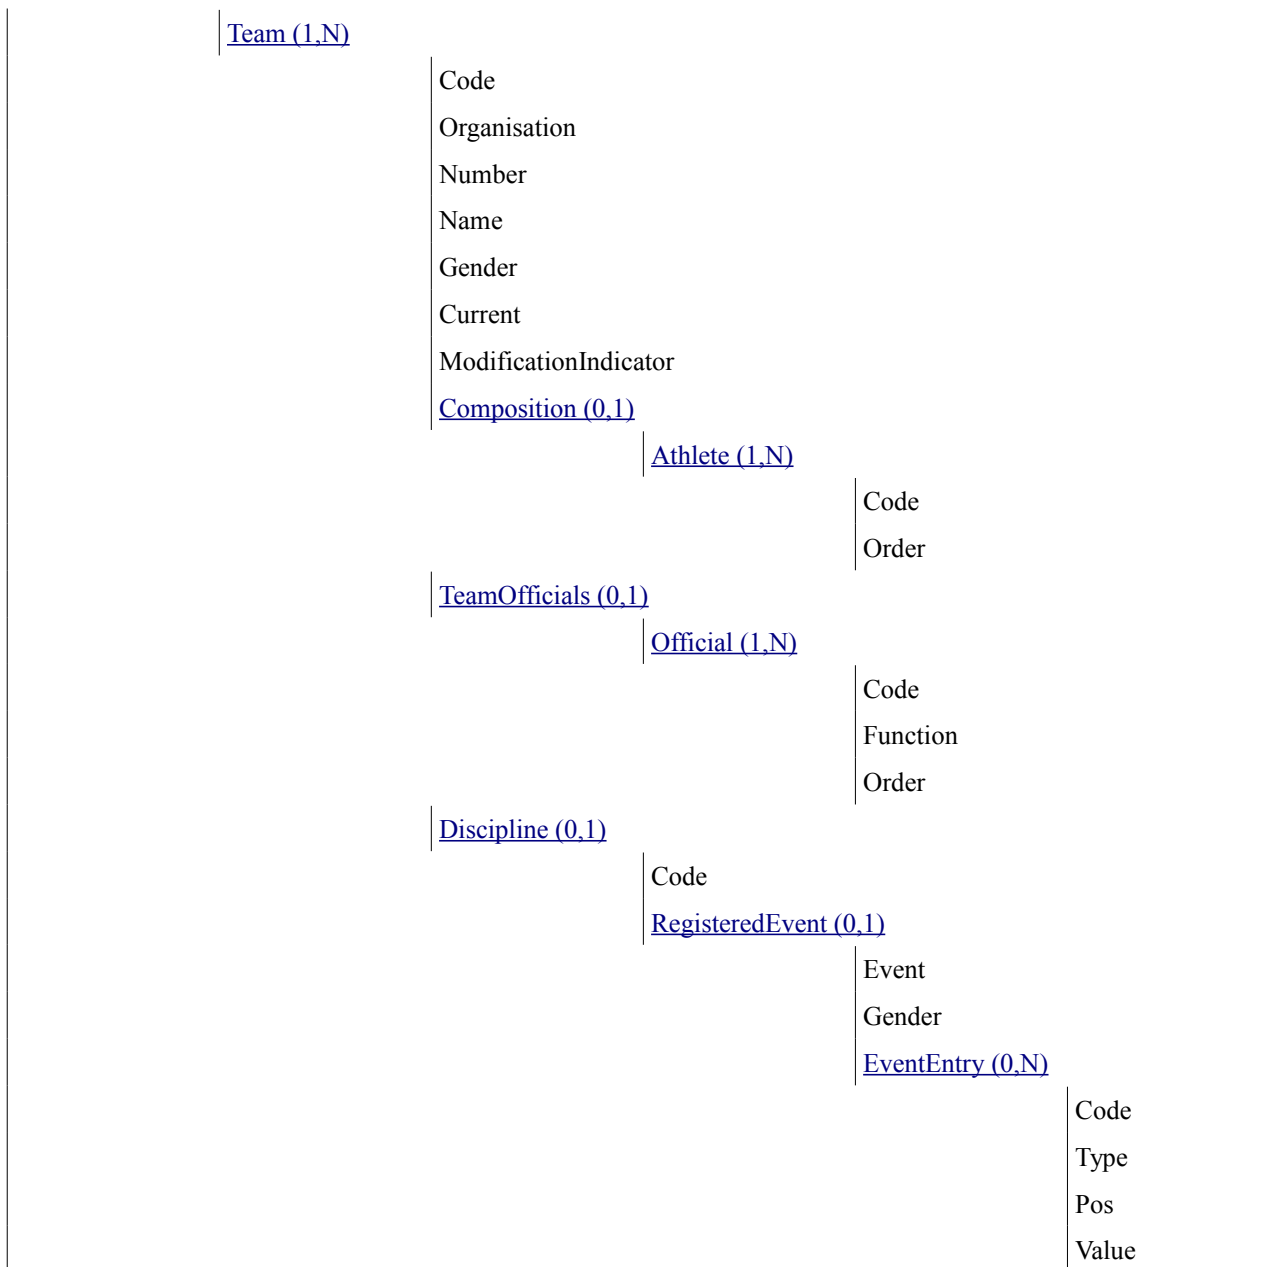

The DT\_PARTIC\_TEAMS message is sent as a bulk message approximately one month before the Games. It is sent several times up to the date of transfer of control to OVR after which only DT\_PARTIC\_TEAMS\_UPDATE messages are sent.

The DT\_PARTIC\_TEAMS\_UPDATE message is triggered when there is a modification in the data for any team after the transfer of control to OVR.

### 2.2.3.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2 | Level 3 | Level 4 | Level 5 | Level 6 |
|-----------------------------------|---------|---------|---------|---------|---------|
| <a href="#">Competition (1,1)</a> |         |         |         |         |         |
|                                   | Code    |         |         |         |         |

### 2.2.3.5 Message Values

| Element: Competition (1,1) |     |                                 |                            |
|----------------------------|-----|---------------------------------|----------------------------|
| Attribute                  | M/O | Value                           | Description                |
| Code                       | M   | <a href="#">CC @Competition</a> | Unique ID for competition. |

|  |  |  |   |
|--|--|--|---|
|  |  |  | Code is deprecated and value is duplicated in the header. |
|--|--|--|---|

| <b>Element: Team (1,N)</b> |            |                                      |  |
|----------------------------|------------|--------------------------------------|--|
| <b>Attribute</b>           | <b>M/O</b> | <b>Value</b>                         | <b>Description</b>   |
| Code                       | M          | S(20) with no leading zeroes         | Team's ID (example ATM001ESP01, 393553)<br><br>When the Team is an historical one, then this ID starts with "T".   |
| Organisation               | M          | <a href="#">CC @Organisation</a>     | Team organisation's ID   |
| Number                     | O          | Numeric #0                           | Team's number.<br><br>If there is not more than one team for one organisation participating in one event, it is 1. Otherwise, it will be incremental, 1 for the first organisation's team, 2 for the second organisation's team, etc.<br><br>Required in the case of current teams.  |
| Name                       | O          | S(73)                                | Team's name.   |
| Gender                     | M          | <a href="#">CC @DisciplineGender</a> | Discipline Gender Code of the Team   |
| Current                    | M          | boolean                              | It defines if a team is participating in the games (true) or it is a Historical team (false)   |
| ModificationIndicator      | M          | N, U, D                              | Attribute is mandatory in the DT_PARTIC_TEAMS_UPDATE message only<br><br>N-New team (in the case that this information comes as a late entry)<br>U-Update team<br>D-Delete team<br><br>If ModificationIndicator='N', then include new team to the previous bulk-loaded list of teams<br><br>If ModificationIndicator='U', then update the team to the previous bulk-loaded list of teams<br><br>If ModificationIndicator='D', then delete the team to the previous bulk-loaded list of teams |

| <b>Element: Team /Composition /Athlete (1,N)</b>                         |            |              |                    |
|--|------------|--------------|--------------------|
| <b>In the case of current teams the number of athletes is 2 or more.</b> |            |              |                    |
| <b>Attribute</b>   | <b>M/O</b> | <b>Value</b> | <b>Description</b> |

|       |   |                              |  |
|-------|---|------------------------------|--|
| Code  | M | S(20) with no leading zeroes | Athlete's ID of the listed team's member.<br>Therefore, he/she makes part of the team's composition. |
| Order | O | Numeric                      | Team member order  |

**Element: Team /TeamOfficials /Official (1,N)**

Send if there are specific officials for the team. Does not apply to historical teams.

| Attribute | M/O | Value                               | Description   |
|-----------|-----|-------------------------------------|---|
| Code      | M   | S(20) with no leading zeroes        | Official's ID of the listed team's official.<br>Therefore, he/she makes part of the team's officials. |
| Function  | M   | <a href="#">CC @ResultsFunction</a> | Official's function for the team.   |
| Order     | O   | Numeric #0                          | Official's order in the team.   |

**Element: Team /Discipline (0,1)**

Each team is assigned just to one discipline. Discipline is expected unless ModificationIndicator="D"

| Attribute | M/O | Value                          | Description   |
|-----------|-----|--------------------------------|---|
| Code      | M   | <a href="#">CC @Discipline</a> | It must be the discipline code used to fill the OdfBody @DocumentCode attribute |

**Element: Team /Discipline /RegisteredEvent (0,1)**

Each current team is assigned to one event. Historical teams will not be registered to any event.

| Attribute | M/O | Value                                | Description            |
|-----------|-----|--------------------------------------|------------------------|
| Event     | M   | <a href="#">CC @Event</a>            | Event ID               |
| Gender    | M   | <a href="#">CC @DisciplineGender</a> | Discipline Gender Code |

**Element: Team /Discipline /RegisteredEvent /EventEntry (0,N)**

Send if there are specific team's event entries.

| Type  | Code    | Pos       | Description  |
|-------|---------|-----------|--|

### 2.2.3.6 Message Sort

The message is sorted by Team @Code.

## 2.2.4 Event Unit Start List and Results

### 2.2.4.1 Description

The Event Unit Start List and Results is a message containing both the start list and results information of the competitors in one (individual or team) event unit.

The Event Unit Start List and Results is a mandatory message for all sports. The definition includes as much generic information as possible due to the fact that each discipline and event has its own format for the results information (example: score of a match, time in a race, distance in a throw...).

This is always a full message and all applicable elements and attributes are always sent.

### 2.2.4.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                            | Comment   |
|-----------------|----------------------------------|---|
| CompetitionCode | <a href="#">CC @Competition</a>  | Unique ID for competition   |
| DocumentCode    | DDGEEEEPUU                       | DD according to CC @Discipline<br>G according to CC @DisciplineGender<br>EEE according to CC @Event<br>P according to CC @Phase<br>UU according to CC @Unit   |
| DocumentType    | DT_RESULT                        | Event Unit Start List and Results message   |
| DocumentSubtype | Not used                         | Not used  |
| Version         | 1..V                             | Version number associated to the message's content. Ascendant number  |
| ResultStatus    | <a href="#">SC @ResultStatus</a> | It indicates whether the result is official or unofficial (or intermediate etc).<br>START_LIST<br>OFFICIAL<br>UNOFFICIAL<br>INTERMEDIATE (used after the competition has started and is not finished but not currently live)<br>LIVE (used during the competition when nothing else applies). |
| FeedFlag        | "P"-Production<br>"T"-Test       | Test message or production message.   |
| Date            | Date                             | Date when the message is generated, expressed in the local time zone where the message was produced.  |
| Time            | Time                             | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.   |

|              |                            |  |
|--------------|----------------------------|--|
| LogicalDate  | Date                       | <p>Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.</p> <p>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).</p> <p>The end of the logical day is defined by default at 03:00 a.m.</p> <p>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.</p> <p>Logical Date is expressed in the local time zone where the message was produced.</p>  |
| Source       | <a href="#">SC @Source</a> | Code indicating the system which generated the message.  |
| StartListMod | S(1)                       | <p>Send Y if the start list has been changed with this message and the ResultStatus is not START_LIST. Do not send the attribute if it is not Y. Only send once for each start list change. In this case the full current message is sent with whatever is the current ResultStatus.</p> <p>The Start List is considered to be changed if any of the following changes:</p> <ul style="list-style-type: none"> <li>* Competitors or athletes are added, changed or removed including in &lt;ExtendedInfos /Competitor&gt;</li> <li>* Any change in &lt;Officials&gt;</li> <li>* Any change in StartOrder or StartSortOrder</li> <li>* Any changes in &lt;Coaches&gt;</li> <li>* Any changes in &lt;EventUnitEntry&gt;</li> </ul> <p>Changing descriptions is not considered a start list change.</p> |
| Serial       | Numeric                    | <p>Sequence number (positive integer) for ODF messages.</p> <p>Serial starts with 1 each day for each Source.</p>  |

### 2.2.4.3 Trigger and Frequency

This message is sent with ResultStatus 'START\_LIST' as soon as the expected information is available and any changes to the information. Possible information is:

- \* START LIST: As soon as the team/teams are known, before the match begins.
- \* START LIST: As soon as any of the line-up or starters are known and any change/addition to these only before the start of the match.

This message is then sent with ResultStatus 'LIVE' as soon as the unit starts and continues to be triggered on all updates.

- \* LIVE: At the beginning of each period.
- \* LIVE: After every change in any data (scores, substitute, DQ etc).

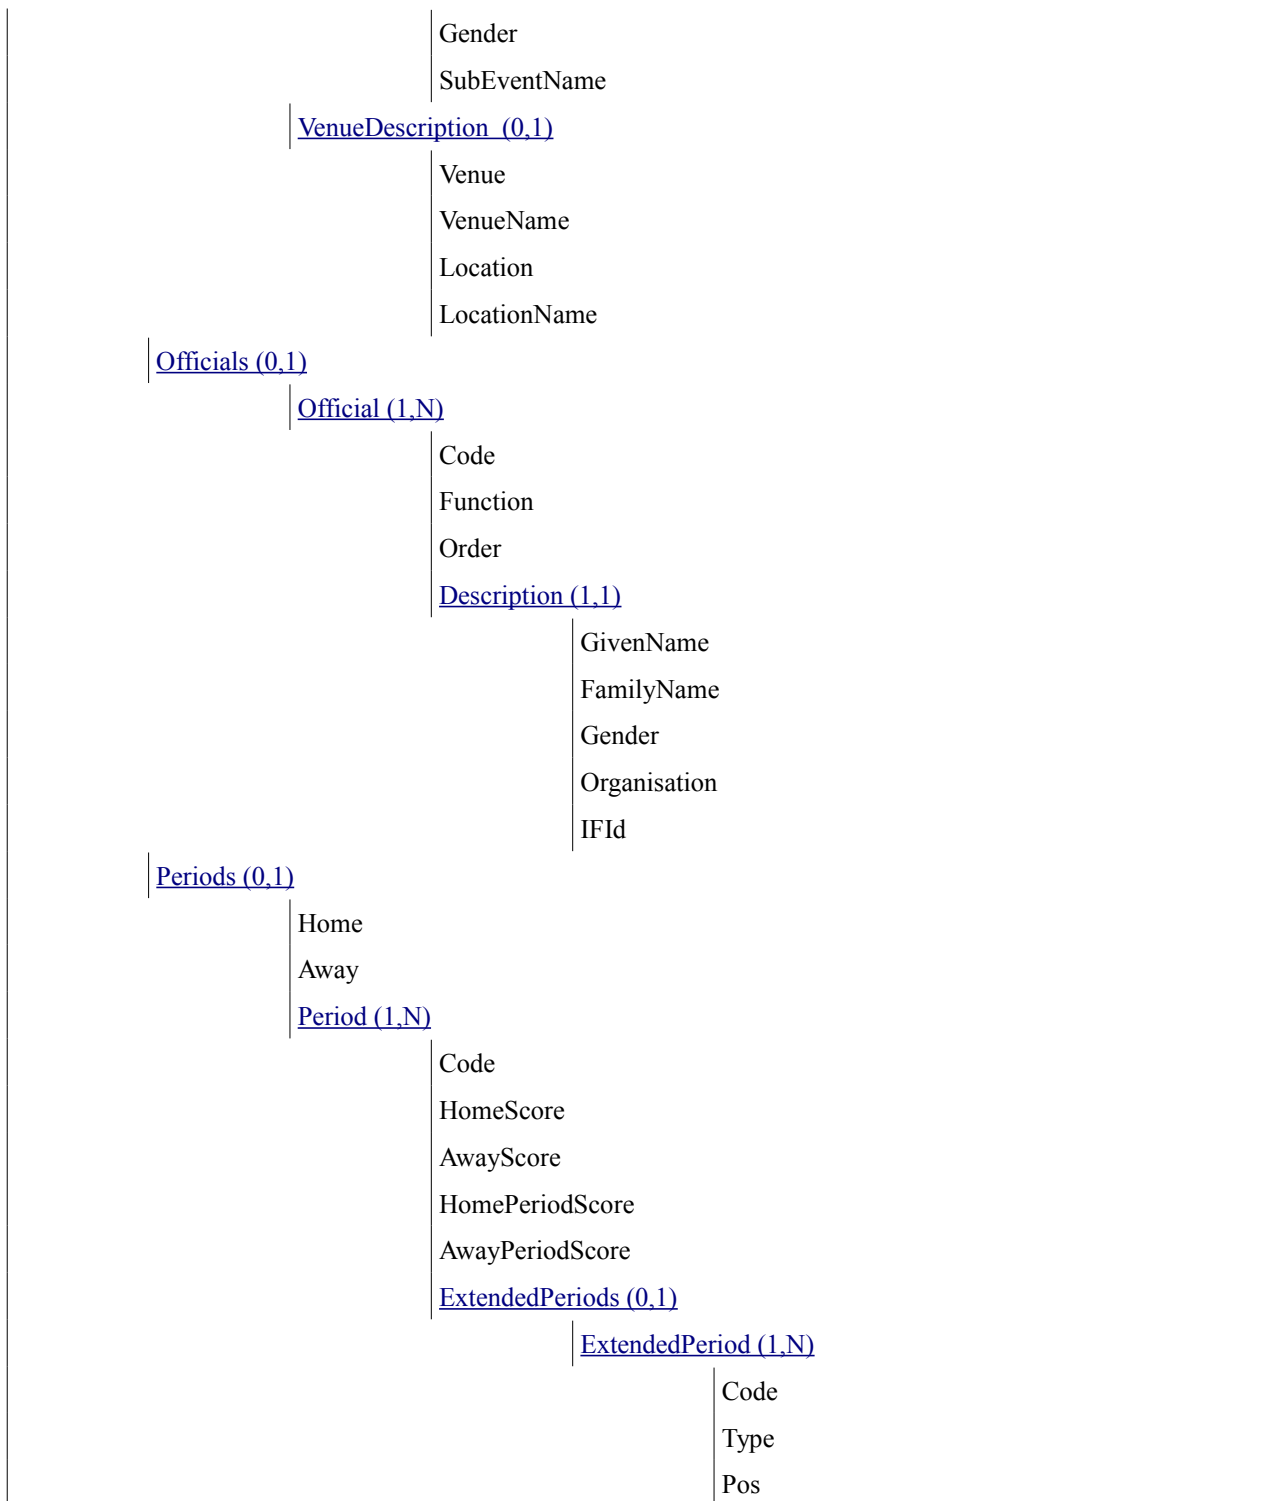

This message is also sent when the event unit finishes and the results are still unofficial. Also, this message is expected when the results become official. The official/unofficial status is included in the ODF headers (ResultStatus attribute). The message is sent as 'INTERMEDIATE' during extended breaks.

- \* INTERMEDIATE: After each period if not the last.
- \* UNOFFICIAL / OFFICIAL: After the match (unit).
- \* Trigger also after any change.

#### 2.2.4.4 Message Structure

The following table defines the structure of the message.

| Level 1                  | Level 2                    | Level 3                       | Level 4                | Level 5 | Level 6 | Level 7 | Level 8 | Level 9 |

**2.2.4.6 Message Sort**

Sort by Result @SortOrder

## 2.2.5 Play by Play

### 2.2.5.1 Description

The Play by Play is a message containing official raw data from the results provider.

The message contains a generic definition that can be used to provide results data of different nature as well as all of the actions in a unit.

### 2.2.5.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                            | Comment  |
|-----------------|----------------------------------|--|
| CompetitionCode | <a href="#">CC @Competition</a>  | Unique ID for competition  |
| DocumentCode    | DDGEEPUU                         | DD according to CC @Discipline<br>G according to CC @DisciplineGender<br>EEE according to CC @Event<br>P according to CC @Phase<br>UU according to CC @Unit  |
| DocumentSubcode | Not used                         | Not used   |
| DocumentType    | DT_PLAY_BY_PLAY                  | Play by Play message   |
| Version         | 1..V                             | Version number associated to the message's content. Ascendant number   |
| ResultStatus    | <a href="#">SC @ResultStatus</a> | Status of the message. Possible values are:<br>START_LIST (only used if there are actions before the start)<br>LIVE (used during the competition when nothing else applies)<br>INTERMEDIATE<br>UNOFFICIAL<br>OFFICIAL (when results official)                            |
| FeedFlag        | "P"-Production<br>"T"-Test       | Test message or production message.  |
| Date            | Date                             | Date when the message is generated, expressed in the local time zone where the message was produced.   |
| Time            | Time                             | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.  |
| LogicalDate     | Date                             | Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.<br><br>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on |

|        |                            |  |
|--------|----------------------------|--|
|        |                            | <p>which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).</p> <p>The end of the logical day is defined by default at 03:00 a.m.</p> <p>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.</p> <p>Logical Date is expressed in the local time zone where the message was produced.</p> |
| Source | <a href="#">SC @Source</a> | Code indicating the system which generated the message.  |
| Serial | Numeric                    | <p>Sequence number (positive integer) for ODF messages.</p> <p>Serial starts with 1 each day for each Source.</p>  |

### 2.2.5.3 Trigger and Frequency

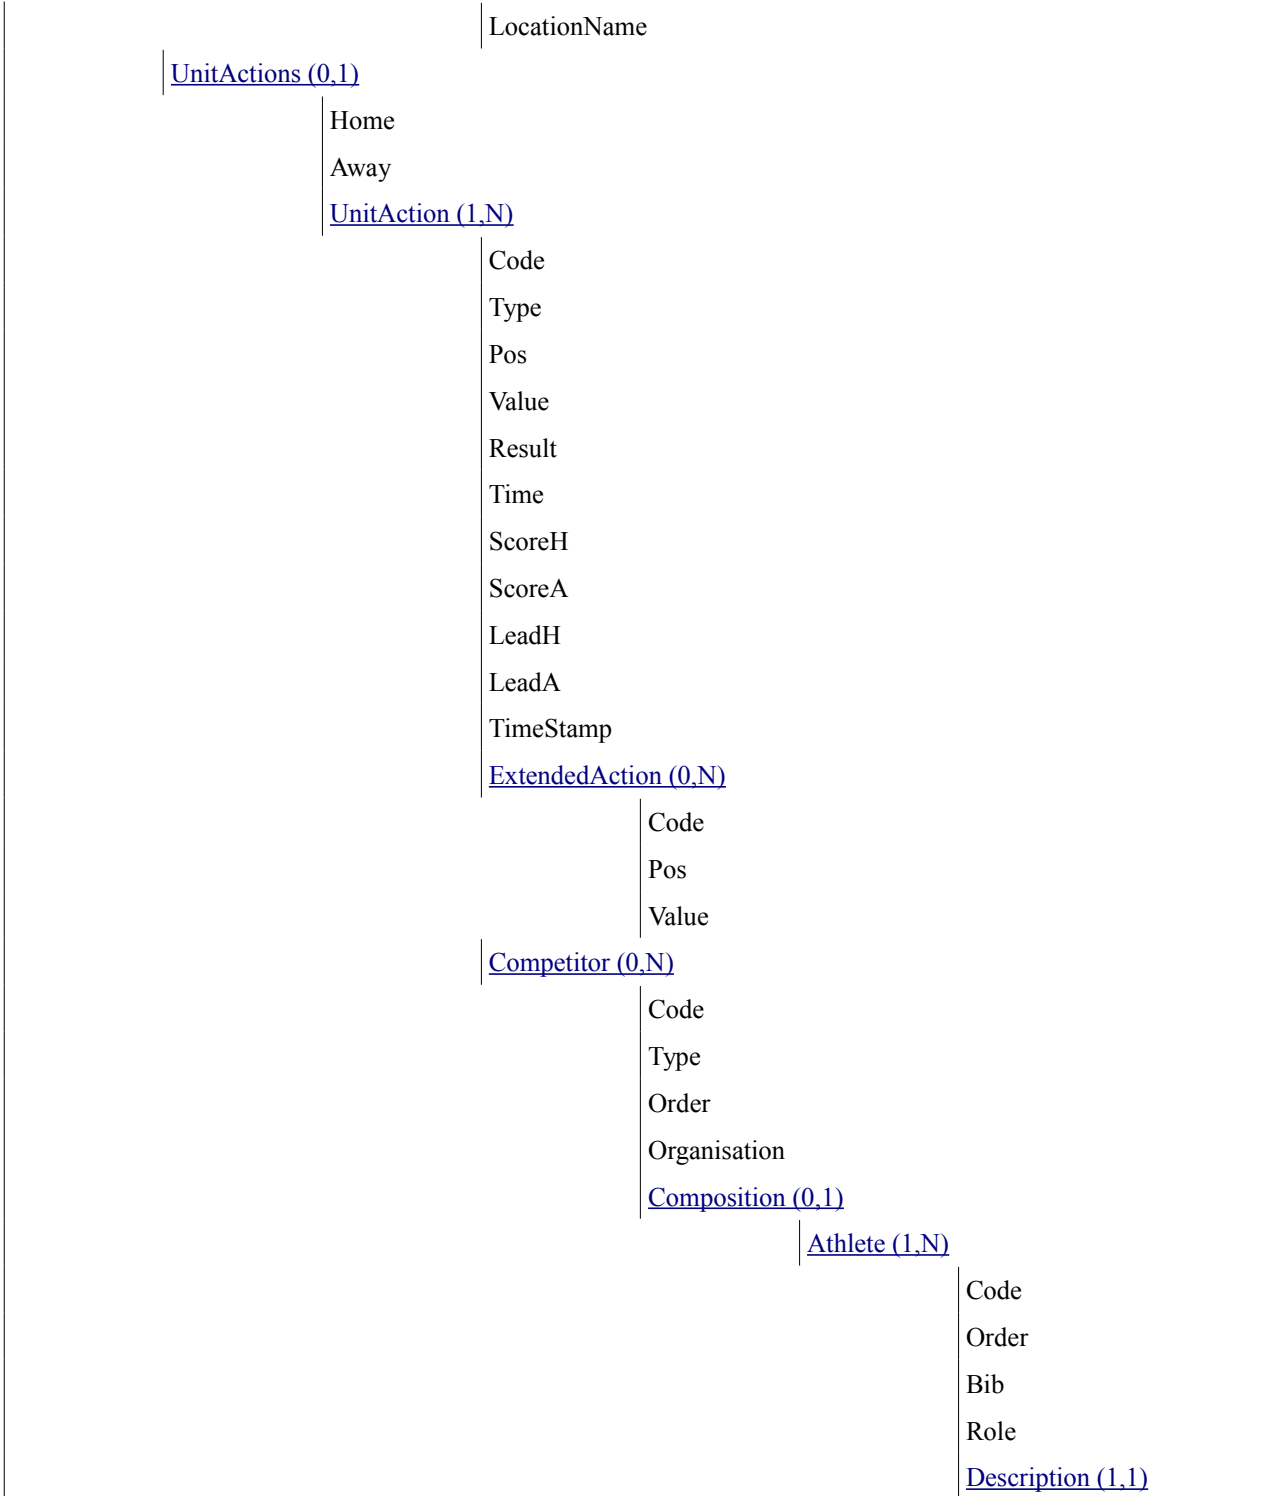

This message is sent:

- \* LIVE: After every action
- \* LIVE: At the start of every period/extra time
- \* INTERMEDIATE: After each period (if it is not the last period)
- \* After the match (unit)

### 2.2.5.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2                             | Level 3                                | Level 4        | Level 5 | Level 6 | Level 7 | Level 8 |
|-----------------------------------|-------------------------------------|--|----------------|---------|---------|---------|---------|
| <a href="#">Competition (1,1)</a> |                                     |  |                |         |         |         |         |
|                                   | Code                                |  |                |         |         |         |         |

| FeedFlag        | "P"-Production<br>"T"-Test      | Test message or production message.  |
| Date            | Date                            | Date when the message is generated, expressed in the local time zone where the message was produced.   |
| Time            | Time                            | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.  |
| LogicalDate     | Date                            | Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.<br><br>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).<br><br>The end of the logical day is defined by default at 03:00 a.m.<br><br>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction. |

|        |                            |  |
|--------|----------------------------|--|
|        |                            | Logical Date is expressed in the local time zone where the message was produced.                       |
| Source | <a href="#">SC @Source</a> | Code indicating the system which generated the message.  |
| Serial | Numeric                    | Sequence number (positive integer) for ODF messages.<br>Serial starts with 1 each day for each Source. |

### 2.2.6.3 Trigger and Frequency

This message is sent:

- \* At the start of every period (to start clock)
- \* Immediately after every change in the score, including penalty shots.
- \* During play i.e. after start and not during half-time, Every 5 minutes after the last DT\_CURRENT message when there is no other activity.

### 2.2.6.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2                       | Level 3                      | Level 4         |
|-----------------------------------|-------------------------------|------------------------------|-----------------|
| <a href="#">Competition (1,1)</a> | Code                          |                              |                 |
|                                   | <a href="#">Clock (0,1)</a>   | Period                       |                 |
|                                   |                               | Time                         |                 |
|                                   |                               | Running                      |                 |

### 2.2.6.6 Message Sort

Sort by Result @SortOrder.

## 2.2.7 Pool Standings

### 2.2.7.1 Description

The pool standings message contains the standings of a group in a competition. It is similar to the Phase Results message, except in the frequency and trigger. Here the message is triggered at the start of OVR operations and then after each event unit (game, match, etc.).

This report is sent independently for each of the groups / pools of the competition in a particular phase, and the group / pool can be determined from the message headers (DocumentCode and DocumentSubtype).

The mandatory attributes and mandatory elements defined in this message will have to be used by all the sports, although each ODF Sport Data Dictionary will have to explain with further detail the optional attributes or optional elements of the message.

### 2.2.7.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                            | Comment   |
|-----------------|----------------------------------|---|
| CompetitionCode | <a href="#">CC @Competition</a>  | Unique ID for competition   |
| DocumentCode    | DDGEEEP00                        | Message at the phase level.<br><br>DD according to CC @Discipline<br>G according to CC @DisciplineGender<br>EEE according to CC @Event<br>P according to CC @Phase    |
| DocumentType    | DT_POOL_STANDING                 | Pool Standings message  |
| DocumentSubtype | Group Code                       | The DocumentSubtype attribute will be the Group code A, B... accordingly to the ODF Common Codes.   |
| Version         | 1..V                             | Version number associated to the message's content. Ascendant number  |
| ResultStatus    | <a href="#">SC @ResultStatus</a> | Status of the message. Expected statuses are:<br>INTERMEDIATE (during the phase)<br>UNOFFICIAL (if last match is unofficial)<br>OFFICIAL (after all matches official) |
| FeedFlag        | "P"-Production<br>"T"-Test       | Test message or production message.   |
| Date            | Date                             | Date when the message is generated, expressed in the local time zone where the message was produced.  |
| Time            | Time                             | Time up to milliseconds when the message is generated,  |

|             |                            |   |
|-------------|----------------------------|---|
|             |                            | expressed in the local time zone where the message was produced.  |
| LogicalDate | Date                       | <p>Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.</p> <p>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).</p> <p>The end of the logical day is defined by default at 03:00 a.m.</p> <p>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.</p> <p>Logical Date is expressed in the local time zone where the message was produced.</p> |
| Source      | <a href="#">SC @Source</a> | Code indicating the system which generated the message.   |
| Serial      | Numeric                    | <p>Sequence number (positive integer) for ODF messages.</p> <p>Serial starts with 1 each day for each Source.</p>   |

### 2.2.7.3 Trigger and Frequency

The general rule is that this message is sent:

- \* Before the start of the competition to build in the initial tables. The message has status INTERMEDIATE
- \* When an event unit of the corresponding phase finishes (not waiting for official). The message has status INTERMEDIATE.
- \* When the phase finishes (there are no more event units/games to compete). The message has status OFFICIAL

The status can be seen in ODF header (ResultStatus attribute).

Trigger also after any change.

However, if there is any kind of sport specific rule, overwrite it in each of the ODF Sport Data Dictionaries.

### 2.2.7.4 Message Structure

The following table defines the structure of the message.

| Level 1                  | Level 2                    | Level 3                       | Level 4                  | Level 5  | Level 6 |
|--------------------------|----------------------------|-------------------------------|--------------------------|----------|---------|
| <u>Competition (1,1)</u> |                            |                               |                          |          |         |
|                          | Code                       |                               |                          |          |         |
|                          | <u>ExtendedInfos (0,1)</u> |                               |                          |          |         |
|                          |                            | <u>SportDescription (0,1)</u> |                          |          |         |
|                          |                            |                               | DisciplineName           |          |         |
|                          |                            |                               | EventName                |          |         |
|                          |                            |                               | SubEventName             |          |         |
|                          |                            |                               | Gender                   |          |         |
|                          | <u>Result (1,N)</u>        |                               |                          |          |         |
|                          |                            | Rank                          |                          |          |         |

### **2.2.7.6 Message Sort**

The attribute used to sort the results is Result @SortOrder.

## 2.2.8 Brackets

### 2.2.8.1 Description

The brackets message contains the brackets information for one particular event. It is used in events where there is a necessity to know in advance how successive event units will be filled as the competition progresses. In the early stages of the competition, it indicates how each of the event units will be built from the winners/losers, or other competition rules of the previous event units.

### 2.2.8.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                            | Comment   |
|-----------------|----------------------------------|---|
| CompetitionCode | <a href="#">CC @Competition</a>  | Unique ID for competition   |
| DocumentCode    | DDGEEE000                        | DD should be according to CC @Discipline<br>G should be according to CC @DisciplineGender<br>EEE should be according to CC @Event   |
| DocumentType    | DT_BRACKETS                      | Brackets message  |
| Version         | 1..V                             | Version number associated to the message's content. Ascendant number  |
| ResultStatus    | <a href="#">SC @ResultStatus</a> | Status of the message. Expected statuses are:<br>INTERMEDIATE (during the competition)<br>UNOFFICIAL (when last match unofficial)<br>OFFICIAL (when all matches official)   |
| FeedFlag        | "P"-Production<br>"T"-Test       | Test message or production message.   |
| Date            | Date                             | Date when the message is generated, expressed in the local time zone where the message was produced.  |
| Time            | Time                             | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.   |
| LogicalDate     | Date                             | Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.<br><br>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).<br><br>The end of the logical day is defined by default at 03:00 a.m. |

|        |                            |   |
|--------|----------------------------|---|
|        |                            | For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.<br><br>Logical Date is expressed in the local time zone where the message was produced. |
| Source | <a href="#">SC @Source</a> | Code indicating the system which generated the message.   |
| Serial | Numeric                    | Sequence number (positive integer) for ODF messages.<br><br>Serial starts with 1 each day for each Source.  |

### 2.2.8.3 Trigger and Frequency

This message should be sent at the very beginning of a competition, as soon as brackets are available.

- \* Before the competition
- \* After every match in the preliminaries which determines a position in the bracket.
- \* After every match during final phases

Send when a match/event unit is completed, including Unofficial and Official status. Therefore it is triggered up to three times (with both status) for each event unit (if unofficial is used). The message should be updated including information on each competitor in the different bracket items.

The @ResultStatus attribute will vary depending on the competition status.

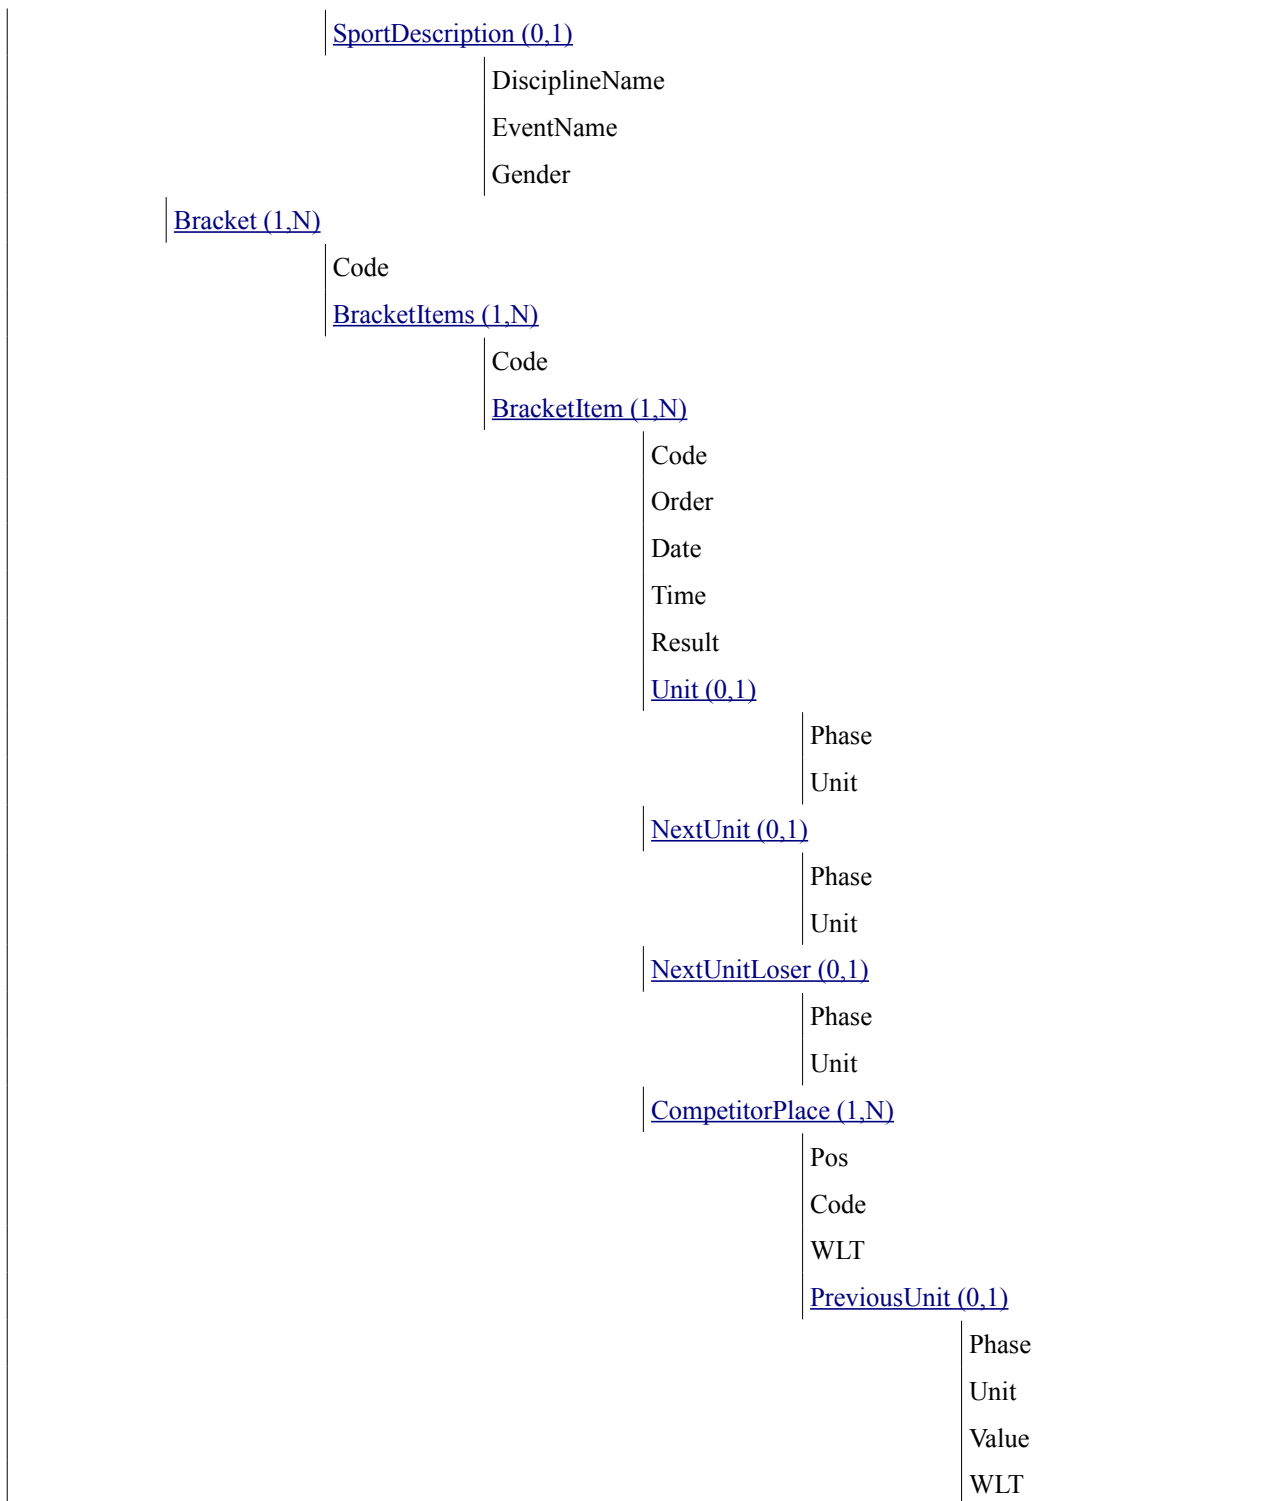

- \* Send with ResultStatus = 'INTERMEDIATE' until the last event unit (Gold Medal Match) is Unofficial (i.e. for all event units up until the Gold Medal match is completed for an event)
- \* Send with ResultStatus = 'UNOFFICIAL' when the last event unit for an event (Gold Medal match) has Unofficial status.
- \* Send with ResultStatus = 'OFFICIAL' when the last event unit for an event (Gold Medal match) has Official status.

Trigger also after any change.

### 2.2.8.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2                             | Level 3 | Level 4 | Level 5 | Level 6 | Level 7 | Level 8 |
|-----------------------------------|-------------------------------------|---------|---------|---------|---------|---------|---------|
| <a href="#">Competition (1,1)</a> |                                     |         |         |         |         |         |         |
|                                   | Code                                |         |         |         |         |         |         |
|                                   | <a href="#">ExtendedInfos (0,1)</a> |         |         |         |         |         |         |

|  |  |                                   |
|--|--|-----------------------------------|
|  |  | <a href="#">Competitor (0,1)</a>  |
|  |  | Code                              |
|  |  | Type                              |
|  |  | Organisation                      |
|  |  | <a href="#">Description (0,1)</a> |
|  |  | TeamName                          |

### 2.2.8.5 Message Values

| Element: Competition (1,1) |     |                                 |                           |
|----------------------------|-----|---------------------------------|---------------------------|
| Attribute                  | M/O | Value                           | Description               |
| Code                       | M   | <a href="#">CC @Competition</a> | Unique ID for competition |

| Element: ExtendedInfos /SportDescription (0,1) |     |                                      |  |
|--|-----|--------------------------------------|--|
| Sport Description in Text                      |     |                                      |  |
| Attribute                                      | M/O | Value                                | Description                                  |
| DisciplineName                                 | M   | S(40)                                | Discipline name (not code) from Common Codes |
| EventName                                      | M   | S(40)                                | Event name (not code) from Common Codes.     |
| Gender   | M   | <a href="#">CC @DisciplineGender</a> | Gender code for the event unit               |

| Element: Bracket (1,N) |     |                             |   |
|------------------------|-----|-----------------------------|---|
| Attribute              | M/O | Value                       | Description   |
| Code                   | M   | <a href="#">SC @Bracket</a> | Bracket code to identify a bracket item.<br>One for each individual bracket as defined in ORIS.<br><br>Bracket code to identify a bracket item (finals, classification games...). There should be a different code for each bracket based on sport/ORIS presentation of the bracket. For example bronze bracket is a different code from that leading to gold (assuming there are matches played) |

| Element: Bracket /BracketItems (1,N) |     |                                  |  |
|--------------------------------------|-----|----------------------------------|--|
| Attribute                            | M/O | Value                            | Description  |
| Code                                 | M   | <a href="#">SC @BracketItems</a> | Bracket code to identify a set of bracket items. It usually refers to the phase BracketItem /Unit @Phase |

| <b>Element: Bracket /BracketItems /BracketItem (1,N)</b> |            |               |   |
|--|------------|---------------|---|
| <b>Attribute</b>   | <b>M/O</b> | <b>Value</b>  | <b>Description</b>  |
| Code   | M          | Numeric<br>#0 | Bracket code to identify a bracket item.<br>The match for each bracket item<br>(e.g.: 25, 26, 27, 28,..)  |
| Order  | M          | Numeric       | Sequential number inside of BracketItems to indicate the<br>order, always start by 1  |
| Date   | O          | Date          | Date of match (example: YYYY-MM-DD). Must include<br>if the data is available   |
| Time   | O          | S(5)          | Time of match (example HH:MM). Must include if the<br>data is available.  |
| Result   | O          | S(50)         | Result of the match if the match is complete and<br>formatted as in ORIS (separator & order, example "4:0<br>(0:0)"). May include an IRM. Must include if the data is<br>available and the match is complete. |

| <b>Element: Bracket /BracketItems /BracketItem /Unit (0,1)</b> |            |                           |                                 |
|--|------------|---------------------------|---------------------------------|
| <b>Unit related to the BracketItem.</b>                        |            |                           |                                 |
| <b>Attribute</b>   | <b>M/O</b> | <b>Value</b>              | <b>Description</b>              |
| Phase  | M          | <a href="#">CC @Phase</a> | Phase code for the bracket item |
| Unit   | M          | <a href="#">CC @Unit</a>  | Unit code for the bracket item  |

| <b>Element: Bracket /BracketItems /BracketItem /NextUnit (0,1)</b>   |            |                           |  |
|--|------------|---------------------------|--|
| <b>Next event unit related to the current bracket item. It is always informed except for the terminal bracket items, which do not have continuation according to the brackets graph.</b> |            |                           |  |
| <b>Attribute</b>   | <b>M/O</b> | <b>Value</b>              | <b>Description</b>   |
| Phase  | M          | <a href="#">CC @Phase</a> | Phase code of the next event unit for the current bracket<br>item. |
| Unit   | M          | <a href="#">CC @Unit</a>  | Unit code of the next event unit for the current bracket<br>item.  |

| <b>Element: Bracket /BracketItems /BracketItem /NextUnitLoser (0,1)</b>   |            |                           |   |
|---|------------|---------------------------|---|
| <b>Next event unit related to the current bracket item, but related to the loser competitor. It is always informed except for the terminal bracket items, which do not have continuation according to the brackets graph.</b> |            |                           |   |
| <b>Attribute</b>  | <b>M/O</b> | <b>Value</b>              | <b>Description</b>  |
| Phase   | M          | <a href="#">CC @Phase</a> | Phase code of the next event unit for the current bracket<br>item, but related to the loser competitor. |

|      |   |                          |   |
|------|---|--------------------------|---|
| Unit | M | <a href="#">CC @Unit</a> | Unit code of the next event unit for the current bracket item, but related to the loser competitor. |
|------|---|--------------------------|---|

**Element: Bracket /BracketItems /BracketItem /CompetitorPlace (1,N)**

- If the competitors are known, this element is used to place the competitors in the bracket.
- If they are not yet known, it contains some information (on the rule to access to this bracket...)

| Attribute | M/O | Value                               | Description  |
|-----------|-----|-------------------------------------|--|
| Pos       | M   | Numeric<br>0                        | This attribute is a sequential number to place the competitors in the bracket (1 or 2).  |
| Code      | O   | <a href="#">SC @CompetitorPlace</a> | Code for the first competitor of the BracketItem, usually to indicate the rule to access to the bracket item and appearing as first competitor.<br><br>It will be sent when there is no competitor team (BYE) or when it is not known yet (TBD). |
| WLT       | O   | <a href="#">SC @WLT</a>             | W or L, Indicates the winner or loser of the bracket item. Always send when known  |

**Element: Bracket /BracketItems /BracketItem /CompetitorPlace /PreviousUnit (0,1)**

Previous event unit related to the CompetitorPlace@Pos competitor of the current bracket item. It is always informed except for the bracket items whose CompetitorPlace@Pos competitor do not have preceding event units in the bracket graph unless coming from a pool.

| Attribute | M/O | Value                     | Description  |
|-----------|-----|---------------------------|--|
| Phase     | O   | <a href="#">CC @Phase</a> | Phase code of the previous event phase for the CompetitorPlace@Pos competitor of the bracket item.<br>Send 9 in case of F3/G3, E3/F3 or E3/G3 for Women competition.   |
| Unit      | O   | <a href="#">CC @Unit</a>  | Unit code of the previous event unit for the CompetitorPlace@Pos competitor of the bracket item. Must send if a winner/loser from a single unit.   |
| Value     | O   | SC@Pool or S(2)           | If the competitor in the current unit is unknown due to coming from pools or previous matches then fill this field with the code of the pool or the match number as appropriate.   |
| WLT       | O   | W or L                    | If the competitor in the current unit is unknown and coming from an earlier bracketitem then fill this field with the W or L indication winner or loser of the previous unit if the information is known. Do not send if competitor comes from a pool. |

**Element: Bracket /BracketItems /BracketItem /CompetitorPlace /Competitor (0,1)**

| <b>CompetitorPlace @Pos competitor related to the bracket item. Only include if the competitor is known .</b> |            |                                  |                                     |
|---|------------|----------------------------------|-------------------------------------|
| <b>Attribute</b>  | <b>M/O</b> | <b>Value</b>                     | <b>Description</b>                  |
| Code  | M          | S(20) with no leading zeroes     | Competitor's ID                     |
| Type  | M          | T                                | T for team                          |
| Organisation  | O          | <a href="#">CC @Organisation</a> | Competitors' organisation if known. |

| <b>Element: Bracket /BracketItems /BracketItem /CompetitorPlace /Competitor /Description (0,1)</b> |            |              |  |
|--|------------|--------------|--|
| <b>Attribute</b>   | <b>M/O</b> | <b>Value</b> | <b>Description</b>                                 |
| TeamName   | M          | S(73)        | Name of the team. Only applies for teams / groups. |

**Sample (Sample)**

```

<Bracket Code="FNL">
  <BracketItems Code="QFL">
    <BracketItem Code="19" Order="1" Date="2016-08-13" Time="22:00">
      <Unit Phase="3" Unit="01" />
      <NextUnit Phase="2" Unit="01" />
      <CompetitorPlace Pos="1" Code="TBD">
        <PreviousUnit Phase="E" Value="1" />
      </CompetitorPlace>
      <CompetitorPlace Pos="2" Code="TBD">
        <PreviousUnit Phase="9" Value="F3/G3" />
      </CompetitorPlace>
    </BracketItem>
    <BracketItem Code="21" Order="2" Date="2016-08-13" Time="18:30">
      <Unit Phase="3" Unit="02" />
      <NextUnit Phase="2" Unit="01" />
      <CompetitorPlace Pos="1" Code="TBD">
        <PreviousUnit Phase="G" Value="1" />
      </CompetitorPlace>
      <CompetitorPlace Pos="2" Code="TBD">
        <PreviousUnit Phase="9" Value="E3/F3" />
      </CompetitorPlace>
    </BracketItem>
  ...

```

**2.2.8.6 Message Sort**

The following order applies:

- \* Every ODF Sport Data Dictionary making use of this message should specify the order for Bracket @Code if more than one '@Code' is possible.
- \* Every ODF Sport Data Dictionary should specify the order for BracketItems according to its @Code attribute. It will usually be referred to BracketItems /BracketItem /Unit @Phase (all BracketItem should be grouped by the BracketItem /Unit @Phase attribute).

INTERNATIONAL OLYMPIC COMMITTEE

ODF/INT159- R-SOG-2016-v1.8 APP (FB)

\* Then, the BracketItem /Unit @Unit are sorted according to their scheduled start time.

## 2.2.9 Statistics

### 2.2.9.1 Description

The Statistics message contains a list of statistics for a competitor (could be an individual athlete or a team), that applies at a DocumentCode level, which could be for an event unit, a phase or an event.

There will be a separate message (identified by the header's DocumentSubtype and DocumentSubcode) for every table where multiple statistics apply.

### 2.2.9.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value  | Comment  |
|-----------------|--|--|
| CompetitionCode | <a href="#">CC @Competition</a>  | Unique ID for competition  |
| DocumentCode    | RSC  | The DocumentCode attribute in the ODF header will be sent according for all the competition events to the ODF Common Codes document (header values).   |
| DocumentSubcode | The DocumentSubcode is the NOC concatenated with the Team Number, e.g. BRA1. | Use DocumentSubcode with the Organisation only for DocumentSubtype CUM.  |
| DocumentType    | DT_STATS   | Statistics message   |
| DocumentSubtype | CUM<br>IND_RANKING<br>TOU  | - CUM: For cumulative data of individual player statistics and team statistics. There will be one single message for each team. The DocumentSubcode is the NOC concatenated with the Team Number, e.g. BRA1. Concatenation will happen only when an organisation has more than one team.<br>- IND_RANKING: Ranking of individual tournament statistics, for the best athletes.<br>- TOU: Tournament statistics (like Tournaments Total statistics or Disciplinary matters Total statistics). |
| Version         | 1..V   | Version number associated to the message's content. Ascendant number   |
| ResultStatus    | <a href="#">SC @ResultStatus</a>   | It indicates whether the result is official or intermediate etc).<br>LIVE (used during the competition when nothing else applies)<br>INTERMEDIATE (used after the competition has started and is not finished but not currently live, typically between units)<br>OFFICIAL (after the last unit which effects the statistics is official)  |
| FeedFlag        | "P"-Production   | Test message or production message.  |

|             |                            |   |
|-------------|----------------------------|---|
|             | "T"-Test                   |   |
| Date        | Date                       | Date when the message is generated, expressed in the local time zone where the message was produced.  |
| Time        | Time                       | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.   |
| LogicalDate | Date                       | <p>Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.</p> <p>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).</p> <p>The end of the logical day is defined by default at 03:00 a.m.</p> <p>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.</p> <p>Logical Date is expressed in the local time zone where the message was produced.</p> |
| Source      | <a href="#">SC @Source</a> | Code indicating the system which generated the message.   |
| Serial      | Numeric                    | <p>Sequence number (positive integer) for ODF messages.</p> <p>Serial starts with 1 each day for each Source.</p>   |

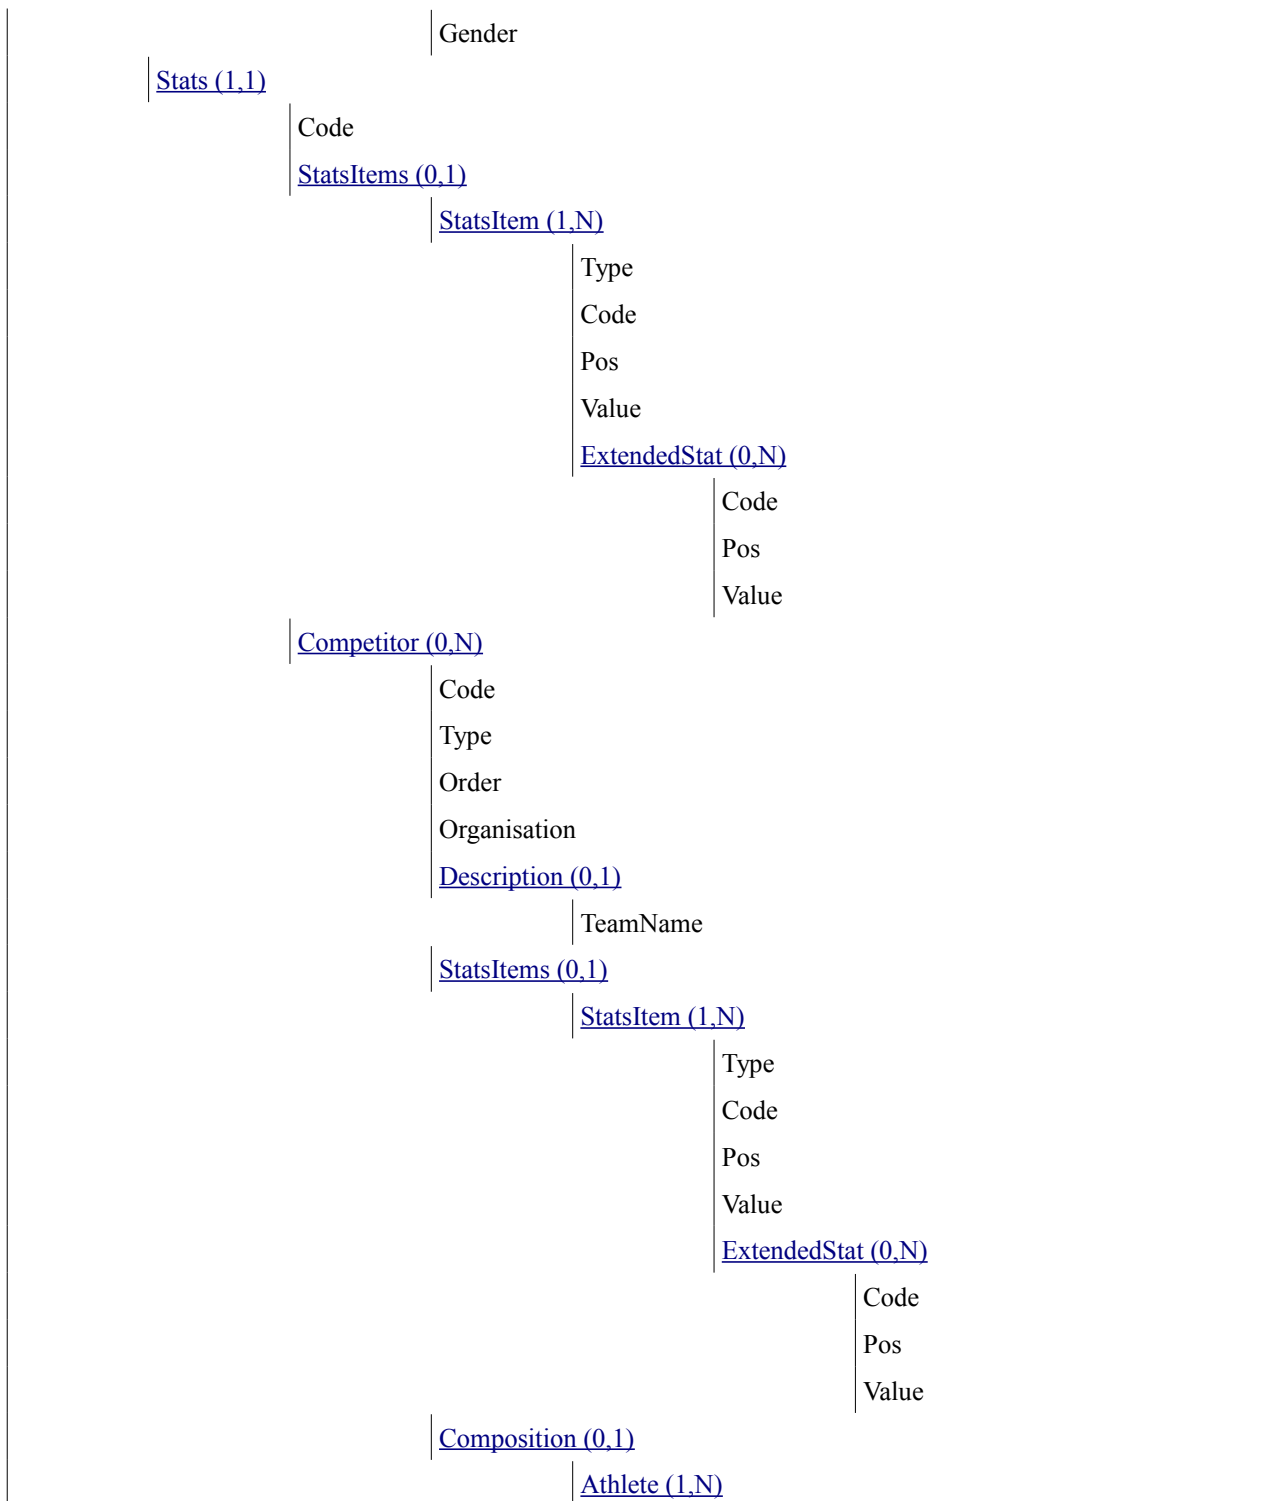

### 2.2.9.3 Trigger and Frequency

This message should be sent after the end of each match with the DocumentCode DDGEEE000.  
 \* After each match as in the general definition.

### 2.2.9.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2                             | Level 3                                | Level 4        | Level 5 | Level 6 | Level 7 | Level 8 | Level 9 |
|-----------------------------------|-------------------------------------|--|----------------|---------|---------|---------|---------|---------|
| <a href="#">Competition (1,1)</a> |                                     |  |                |         |         |         |         |         |
|                                   | Code                                |  |                |         |         |         |         |         |
|                                   | <a href="#">ExtendedInfos (0,1)</a> |  |                |         |         |         |         |         |
|                                   |                                     | <a href="#">SportDescription (0,1)</a> |                |         |         |         |         |         |
|                                   |                                     |  | DisciplineName |         |         |         |         |         |
|                                   |                                     |  | EventName      |         |         |         |         |         |

|                           |  |

**2.2.9.6 Message Sort**

Sort according to the @Order attributes.

## 2.2.10 Event Final Ranking

### 2.2.10.1 Description

The event final ranking is a message containing the final results and ranking at the completion of one particular event, either for individual athletes or for aggregated athletes.

The final ranking message is a generic message for all sports, including the full event final result for all competitors who were either ranked, got an Invalid Rank Mark (disqualified, etc.), or both.

The mandatory attributes and mandatory elements defined in this message will have to be used by all the sports, although each ODF Sport Data Dictionary will have to explain with further detail the optional attributes or optional elements of the message.

Depending on the sport rules include all competitors in the competition as all can be ranked (as in Marathon) or only include those with a final ranking as other are unranked (as in tennis).

### 2.2.10.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                            | Comment   |
|-----------------|----------------------------------|---|
| CompetitionCode | <a href="#">CC @Competition</a>  | Unique ID for competition   |
| DocumentCode    | DDGEEE000                        | DD according to CC @Discipline<br>G according to CC @DisciplineGender<br>EEE according to CC @Event                               |
| DocumentType    | DT_RANKING                       | Event Final ranking message   |
| Version         | 1..V                             | Version number associated to the message's content. Ascendant number  |
| ResultStatus    | <a href="#">SC @ResultStatus</a> | Result status, indicates whether the data is official or partial.<br>OFFICIAL<br>PARTIAL  |
| FeedFlag        | "P"-Production<br>"T"-Test       | Test message or production message.   |
| Date            | Date                             | Date when the message is generated, expressed in the local time zone where the message was produced.                              |
| Time            | Time                             | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.           |
| LogicalDate     | Date                             | Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight. |

|        |                            |  |
|--------|----------------------------|--|
|        |                            | <p>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).</p> <p>The end of the logical day is defined by default at 03:00 a.m.</p> <p>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.</p> <p>Logical Date is expressed in the local time zone where the message was produced.</p> |
| Source | <a href="#">SC @Source</a> | Code indicating the system which generated the message.  |
| Serial | Numeric                    | <p>Sequence number (positive integer) for ODF messages.</p> <p>Serial starts with 1 each day for each Source.</p>  |

### 2.2.10.3 Trigger and Frequency

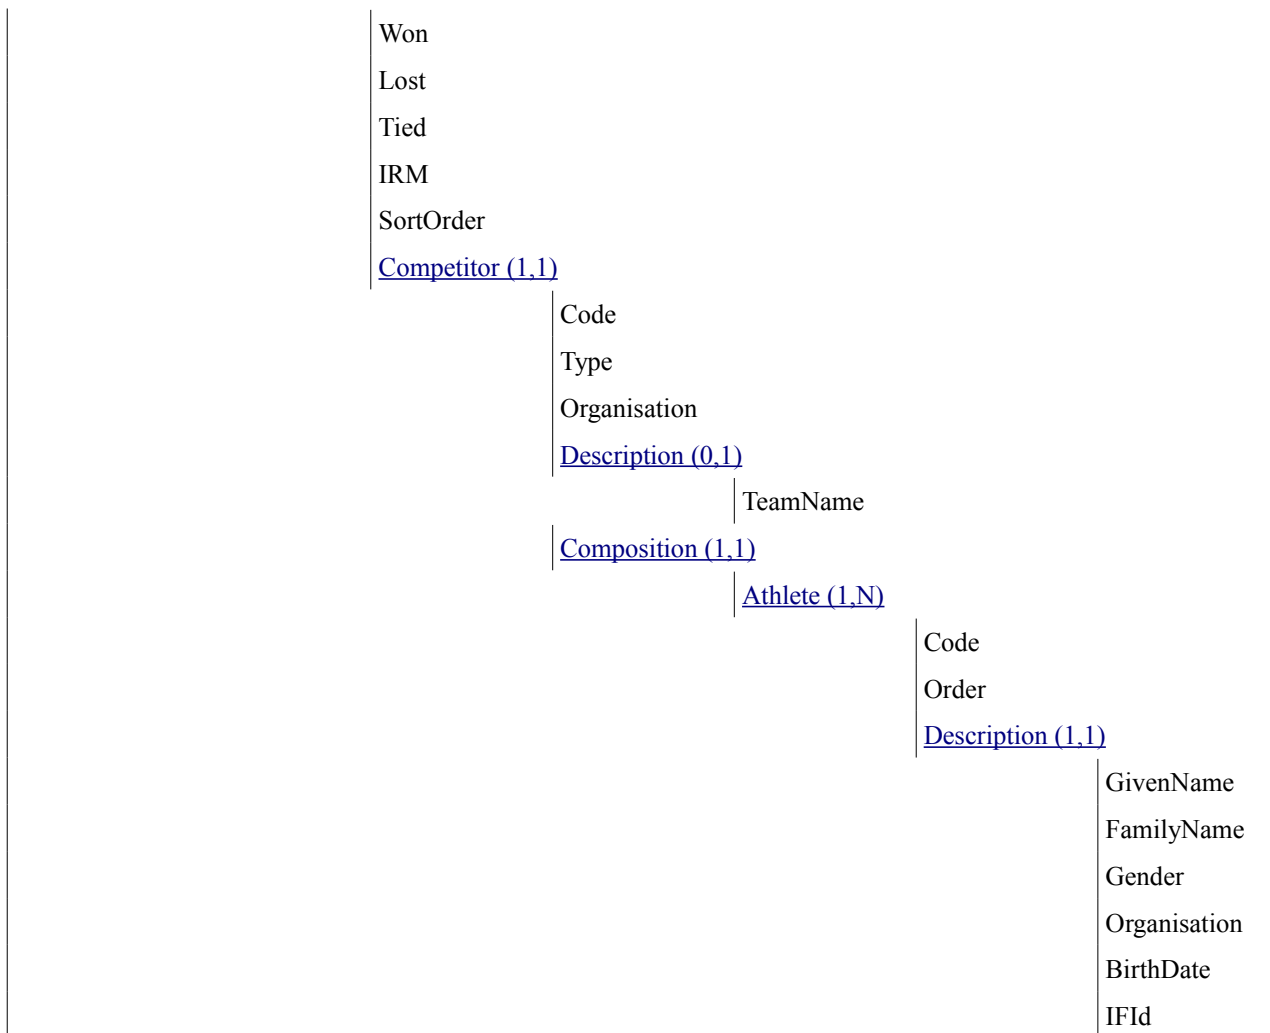

This message is only triggered after a unit which affects the final ranking is official and that particular ranking is not subject to change.

\* After each position is known

### 2.2.10.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2                             | Level 3                                | Level 4        | Level 5 | Level 6 | Level 7 |
|-----------------------------------|-------------------------------------|--|----------------|---------|---------|---------|
| <a href="#">Competition (1,1)</a> |                                     |  |                |         |         |         |
|                                   | Code                                |  |                |         |         |         |

|                                   |                                     |  | Gender         |         |         |         |
|                                   | <a href="#">Result (1,N)</a>        |  |                |         |         |         |
|                                   |                                     | Rank                                   |                |         |         |         |
|                                   |                                     | RankEqual                              |                |         |         |         |
|                                   |                                     | Played                                 |                |         |         |         |

### 2.2.10.5 Message Values

| Element: Competition (1,1) |     |                                 |                           |
|----------------------------|-----|---------------------------------|---------------------------|
| Attribute                  | M/O | Value                           | Description               |
| Code                       | M   | <a href="#">CC @Competition</a> | Unique ID for competition |

| Element: ExtendedInfos /SportDescription (0,1) |     |       |  |
|--|-----|-------|--|
| Sport Description in text                      |     |       |  |
| Attribute                                      | M/O | Value | Description                                  |
| DisciplineName                                 | M   | S(40) | Discipline name (not code) from Common Codes |

|           |   |                                      |   |
|-----------|---|--------------------------------------|---|
| EventName | M | S(40)                                | Event name (not code) from Common Codes. Must be included if it is a single event |
| Gender    | M | <a href="#">CC @DisciplineGender</a> | Gender code for the event unit. Must be included if it is a single gender         |

**Element: Result (1,N)**

For any event final ranking message, there should be at least one competitor being awarded a result for the event.

| Attribute | M/O | Value                   | Description  |
|-----------|-----|-------------------------|--|
| Rank      | O   | Text                    | Rank of the competitor in the result.<br>It is optional because the team can be disqualified or has abandoned the game.  |
| RankEqual | O   | Y                       | Identifies if a rank has been equalled. Only send if applicable  |
| Played    | O   | Numeric<br>#0           | Send number of matches played  |
| Won       | O   | Numeric<br>#0           | Send number of matches won   |
| Lost      | O   | Numeric<br>#0           | Send number of matches lost  |
| Tied      | O   | Numeric<br>#0           | Send number of matches tied  |
| IRM       | O   | <a href="#">SC @IRM</a> | The invalid result mark, in case it is assigned.<br><br>Send just if the team has been disqualified or has abandoned the game.   |
| SortOrder | M   | Numeric                 | This attribute is a sequential number with the order of the competitors at the end of the event, if they were to be presented. It is mostly based on the rank, but it should be used to sort out disqualified teams. |

**Element: Result /Competitor (1,1)**

Competitor related to one final event result.

| Attribute    | M/O | Value                                | Description   |
|--------------|-----|--------------------------------------|---|
| Code         | M   | S(20) with no leading zeroes, NOC ID | Competitor's ID.<br>If NOC or NPC, the value will be NOC ID.<br>"NOCOMP" in the case where there is no competitor in the rank due to IRM. |
| Type         | M   | T                                    | T for team  |
| Organisation | O   | <a href="#">CC @Organisation</a>     | Competitors's organisation if known   |

| Element: Result /Competitor /Description (0,1) |     |       |  |
|--|-----|-------|--|
| Attribute                                      | M/O | Value | Description  |
| TeamName                                       | M   | S(73) | Name of the team. Only applies for teams / groups. |

| Element: Result /Competitor /Composition /Athlete (1,N) |     |                              |   |
|---|-----|------------------------------|---|
| Attribute   | M/O | Value                        | Description   |
| Code  | M   | S(20) with no leading zeroes | Athlete's ID, corresponding to a team member.<br>Team members should be participating in the event. |
| Order   | M   | Numeric                      | Order attribute used to sort team members in a team   |

| Element: Result /Competitor /Composition /Athlete /Description (1,1) |     |                                  |   |
|--|-----|----------------------------------|---|
| Attribute  | M/O | Value                            | Description   |

## 2.2.11 Event Unit Weather conditions

### 2.2.11.1 Description

The 'Event Unit Weather Conditions' is a message containing the weather conditions in the Event Unit.

### 2.2.11.2 Header Values

The following table describes the message header attributes.

| Attribute       | Value                           | Comment  |
|-----------------|---------------------------------|--|
| CompetitionCode | <a href="#">CC @Competition</a> | Unique ID for competition  |
| DocumentCode    | DDGEEPUU                        | DD according to CC @Discipline<br>G according to CC @DisciplineGender<br>EEE according to CC @Event<br>P according to CC @Phase<br>UU according to CC @Unit  |
| DocumentType    | DT_WEATHER                      | Weather conditions in the match message  |
| Version         | 1..V                            | Version number associated to the message's content. Ascendant number   |
| FeedFlag        | "P"-Production<br>"T"-Test      | Test message or production message.  |
| Date            | Date                            | Date when the message is generated, expressed in the local time zone where the message was produced.   |
| Time            | Time                            | Time up to milliseconds when the message is generated, expressed in the local time zone where the message was produced.  |
| LogicalDate     | Date                            | Logical Date of events. This is the same as the physical day except when the unit or message transmission extends after midnight.<br><br>If an event unit continues after midnight (24:00), all messages produced will be considered as happening at the logical date on which the event unit began (e.g. for a session which began at 21:00 on Aug 2 and ended at 1:20 on Aug 3, the message will all be dated Aug 2).<br><br>The end of the logical day is defined by default at 03:00 a.m.<br><br>For messages corrections, like invalidating medals or Records, it will be the LogicalDate of the day of the correction.<br><br>Logical Date is expressed in the local time zone where the |

|        |                            |  |
|--------|----------------------------|--|
|        |                            | message was produced.  |
| Source | <a href="#">SC @Source</a> | Code indicating the system which generated the message.  |
| Serial | Numeric                    | Sequence number (positive integer) for ODF messages.<br>Serial starts with 1 each day for each Source. |

### 2.2.11.3 Trigger and Frequency

The message is sent if weather data conditions change during an event unit.

\* At least one (1) hour before the match.

### 2.2.11.4 Message Structure

The following table defines the structure of the message.

| Level 1                           | Level 2                               | Level 3                          | Level 4   | Level 5               |
|-----------------------------------|---------------------------------------|----------------------------------|---|-----------------------|
| <a href="#">Competition (1,1)</a> | Code<br><a href="#">Weather (1,1)</a> | <a href="#">Conditions (1,N)</a> | Code<br>Humidity<br>Wind_Direction<br><a href="#">Condition (0,3)</a> | Code<br>Value         |
|                                   |                                       |                                  | <a href="#">Temperature (0,N)</a>                                     | Code<br>Unit<br>Value |
